Sound changes the ***Planet***

Sound changes the City / Sound changes the Planet Global Initiative – international platform + Urban/City Development, Cultural, Educational and Social initiative.

We propose Sound and its Cultural impact as a unique medium for a social and global change.

* In-house developed hardware: **CitySenseBox™** and **PlanetSenseBox™** families of mobile/stationary IoT devices for improved City measurements.

* Creative AI showcase: **City Symphonies™** – highly anticipated unique musical shows (performed live with local musicians), composed from the City-data.

City Symphonies are a permanently evolving Audio Snapshot of a City's current state. These musical shows are result of the Human-Computer Interaction.
